

Get paid every month. From home. Without a job.

Recurring means clients who pay you every month, not projects you chase. A 6-figure month is not a promise. It is simple maths we do together: your price, times your clients, times your hours. Then we build the offer, the page and the system that makes it repeat.

THE FORMULA

THREE HONEST EXAMPLES, 5 TO 10 HOURS A WEEK

MODEL	PRICE PER CLIENT, PER MONTH	CLIENTS	HOURS A WEEK	EVERY MONTH
Digital services (retainer)	₹20,000	5	10	₹1,00,000
Digital consulting (retainer)	₹40,000	3	6	₹1,20,000
Digital product + services	₹15,000 + product sales	6	8	₹1,20,000+

Not a promise. The numbers you reach depend on your skill, your market, your price and the work you put in. The point is the shape: a few clients, paying monthly, inside hours you actually have.

YOUR NUMBERS · FILL IN, THEN CHECK THE HOURS

PRICE / MONTH	×	CLIENTS	×	HOURS / CLIENT / WEEK	=	EVERY MONTH
_____		_____		_____		_____

Hours check: clients × hours per client must be under the hours you have each week. If it is not, raise the price, not the hours.

No office. A laptop and a phone. Your home address is your business address.	No team. No big spend. You are the business. Under ₹6,000 a year before the first client.	5 to 10 hours a week. And a skill people already ask you for. That is the whole entry ticket.
---	--	--

Skill → Offer → Client → Business → Scale

Five links. Each one ends with something you can hold, not something you learned. Most people skip from Skill to Scale and wonder why nothing earns. The line only rises when the links are built in order.

1

SKILL

What people already pay you for, or ask you for. Not an idea. A thing you can do today.

Done when: one real person has asked you for it in the last year.

2

OFFER

The result, for one kind of person, at a price, in a timeframe. Said in one sentence.

Done when: a friend can repeat it back, price included.

3

CLIENT

Someone has paid. From your own network first: one message to five people who know you.

Done when: money has moved. Not agreed. Paid.

4

BUSINESS

The page, the proposal, the calendar, the invoice. The second client arrives without starting from zero.

Done when: a new enquiry goes from hello to paid on templates.

5

SCALE

Raise the price. Sell the next thing to existing clients. Automate the repeat. Then, a helper.

Done when: income grew last quarter and your hours did not.

WHERE RECURRING COMES FROM

Retainers

A monthly fee for a defined scope.
The backbone of a one-person business.

Repeat clients

The next thing, offered before the first project ends. Cheaper than any stranger.

Products

The piece of your service people can buy without you on the call.
Sells while you sleep.

Are you ready? Find out in 3 minutes.

Eleven questions. A score out of 14. The one stage to fix first. If you are ready, the full plan and a free call with Swapnil.
